SIGNIFICANCE OF MUHARRAM - STORIES OF COURAGE AND TRADITION

Muharram, the first month of the Islamic calendar, was celebrated on 17th July this year. For Muslims, it's a significant time, with Sunni Muslims fasting on this day and Shia Muslims mourning the death of Hussain ibn Ali, the Prophet Muhammad's grandson. Hussain died in the Battle of Karbala. He fought against the army of King Yazid but was killed, so this is an important event to commemorate his bravery and sacrifice. During Muharram, Muslims wear black clothes to show they are grieving and pray. They hold processions in the streets, walking barefoot and singing loudly to mourn Hussain. This is a special way for them to remember and honor Hussain's bravery and sacrifice. It is also significant because it is believed that on this day, Moses and his followers were saved from the Egyptian Pharaoh.

THE LATEST TREND IN RURAL INDIA - EXPLORING ASTRONOMY CLASSES!!

Our country has made significant progress in science and education, with 100 astronomy labs opened in village schools in Uttar Pradesh using local panchayat funds. These labs, equipped with telescopes, make learning about space exciting and accessible for village students. Kids can observe stars, planets, and other celestial objects up close, enhancing their understanding of science. This hands-on learning boosts education by making it interactive and engaging. Exposure to astronomy encourages students to pursue STEM careers and improves their scientific knowledge. These labs also serve as community centers, providing modern technology to rural India and opening up a universe of opportunities for students' education and future careers.
